

To Our Customers and Supply Partners

In response to the COVID-19 Coronavirus, on March 23, 2020, a Michigan State executive order mandated that all non-essential workforce must stay home. As Agile Safety plays a critical role in the supply of materials and services used in response to the COVID-19 outbreak as well as essential support for energy & power generation, food & beverage processing and pharmaceuticals & chemicals manufacturing, we have an obligation to remain open.

Our priority is to protect the health and safety of our employees & their families as well as our customers & supply partners. Our office personnel who are working on-site are practicing safe social distancing and other precautionary measures consistent with guidelines established by the CDC and WHO. We are also reducing the number of office personnel to further minimize potential exposure.

- Our office remains open with restricted access to ensure social distancing
- We are operating with a reduced staff and now, as always, look forward to helping you with your needs.
- Agile Safety has suspended all non-essential travel to customer sites
- We are staying informed of any and all emerging information to ensure we continue to adjust accordingly.
- We will continue to monitor and assess the situation and keep you up to date in a timely manner. As always, thank you for your continued support; we wish you all the best. Please be safe and stay healthy!
